The jail door had been closed by a guard who was seized by Brummett and thrown to the floor: Brummett went east through the most thickly settled portion of the city. All the prisoners ran in the direction of the Cottonwood river. Officers and citizens were soon in pursuit. Some of the prisoners are desperate characters and as they are armed a fight will probably result before they are taken. By hard work on the part of the federal officers and the citizens, all of those who broke jail were recaptured except Lee Reed and Bob Harden.

New York.—J. It is strongly suspected that local labor leaders were today in telephone conference with the New York people.

phone conference with the New York people.

President Shaffer of the Amalgamated association today denied the rumor that he was going to New York for a conference with the officials of the United States Steel corporation, but said he might go to Milwaukee to assist in the settlement of several special sales for the Federal Steel company. He said there was nothing new in the situation.

Asked whether he had made the statement attributed to him that if at the expiration of a certain period no agreement had been reached, he would order out all the Amalgamated men employed in mills controlled by the United States Steel corporation, President Shaffer replied saying that he had never given anybody occasion to say anything of the kind.

STRIKE IN EAST ST. LOUIS.

Attempt to Extend the Lockout . Proves a Failure.

St. Louis, Mo., July 5.-An effort made by the striking freight handlers of East St. Louis to call out the men in the freight houses on this side of the river today was only partially successful. Less than 100 went out, it is stated. A crowd of 200 strikers and sympathizers from the east side who crossed the river were dispersed by the police. The attempt to extend the strike to the Missouri side was made, it is said, in retaliation for the policy of the railroads of billing freight through to St. Louis in order to avoid the congested warehouses on the east side.

In East St. Louis the congestion of traffic continues, only a small quantity of freight being moved. The Illinois Central railroad has imported 120 negroes, whom they put to work in the places of the striking trucksters and sorters. The striking trucksters and sorters. Washington, July 5.—The president to-day made the following appointments: Frederick V. Martin of Indiana, to be commissioner of immigration, port of San Juan. Porto Rico. New York.—John E. Ready, who was drowned at Rockaway beach Thursday, was a "caul" man. A "caul" man is one who at birth has on his face a thin membranous mask, which, being removed by the nurse, is carefully treasured by the mother because it is supposed to bring good luck to the child in after years. Today when the dead man's brother went to Rockaway beach he was shown the ciothes that were found in the boat that the mysterious man had jumped from when he went in swimming a mile off shore the day before.

"They look like his clothes," said the brother; "but the only thing he always carried that I could surely identify him by was his 'caul," He had worn it in a leather case around his neck all his life. It will be found on his body, It has saved his life a thousand times. I do not see how he was drowned if he had it on his neck in the water."

The brother had been searching the pockets and suddenly started up with an exclamation. In his hand was a small leather case that had been in the vest. "God help him," he said. "He took it off before he went in swimming." And the man began to sob. He kissed the leather trinket over and over.

"Why," he exclatmed, "he carried that caul constantly all his life. Once when he was a boy he fell down a well. The well was only two feet wice, and he went down head first and coulon't have turned over in the water if he had tried to. In his pocket was this caul, and a lead pipe in the well caught his loot and heid him till he was cratch. At a Fourth of July celebration once he was examining a balloon, which suddenly broke loose and saiked off with him. He went five mies in a thunder shower and landed in an elm tree top and fell from that upon a load of hay. And all because he had the lucky caul."
